EXPERIENCE

WeKnow Technologies | Website

May 2024 - Present

Software Developer

Lucknow

- Developed the **UPCOD Loan Module** for Uttar Pradesh Cooperative Bank, enabling centralized loan management across all districts of Uttar Pradesh. Streamlined data handling and reduced manual processing by digitizing records and repayment schedules.
- Engineered a **School Examination Module** to manage the complete examination lifecycle including exam creation, student marking, and automated mark sheet generation, enhancing academic transparency and efficiency for school administrators.
- Designed and implemented a full-featured **Hotel Management Software**, supporting check-in/check-out operations, advance bookings, food ordering, billing, and service tracking, resulting in improved guest management and operational control.
- Contributed to the **Admin Panel of UPRNSS (Govt.)**, developing modules to manage recruitment posts, tender announcements, and real-time notifications for improved internal workflows and public transparency.
- Built an internal **Complaint Management Portal** for WeKnow Technologies to streamline employee task tracking and issue resolution. Integrated employee database, task assignments, and escalation tracking to boost organizational responsiveness.

APT Technosoft Pvt. Ltd | Website

February 2024 - April 2024

Software Developer Trainee Intern

Lucknow

- Developed and launched Software Result website that provides the information about upcoming tech jobs, internships and more.

PERSONAL PROJECTS

Gallery Software | Github

Gallery Software for J.P.S Rathore (Cooperative Minister, U.P.)

- Developed a full-featured gallery management software for organizing and managing **images, videos, Excel, DOC, PPT files**, with support for **tag-based filtering**, smart search, upload/delete, album creation, and trash recovery. Optimized for government-level content handling.
- Tech Stack: HTML, CSS, JavaScript, PHP, AJAX, MySQL

HHPOI – Historical Heritage Places of India | Github

Informative Website on Indian Heritage Sites

- Designed and built a responsive web platform to promote awareness about **historical heritage sites of India**, providing curated information with clean UI and educational value.
- Tech Stack: HTML, CSS, JavaScript

BBAU APP-Babasaheb Bhimrao Ambedkar University | Github

Android App for Course and Syllabus Management

- Created a mobile application with secure **user authentication (login/register)**, and access to **course-specific syllabus details** for programs like BCA, BSc IT, etc., used by university students.
- Tech Stack: XML, Java, Firebase

EDUCATION

Babasaheb Bhimrao Ambedkar University (A Central University), Lucknow

2021-24

Bachelor of Computer Application

CGPA: 8.42

INTERESTS AND ACHIEVEMENTS

Tech Event Organizer: I led several impactful tech events at my university, including hackathons and tech fests, managing a team of 80+ members. These experiences honed my leadership, event management, and teamwork skills.

Relevant Coursework: Operating Systems, Object-Oriented Programming, Database Management System, Software Engineering.

Area of Interest: Sports, Traveling, Learning New Technologies.

Achievements: I secured 2nd rank in hackathons by creating an effective website and successfully hosting it. This experience enhanced my web development and problem-solving skills.
